EXPERIENCE

Self-Taught/Freelance | Programmer/Web Developer

Sept. 2015 - Present

I've dedicated myself to building a skill set that would allow me to transition to a career in software development. My focus has been in learning object-oriented programming and computer science fundamentals through self-study, peer guidance, and meet-up attendance. I've built many projects using JavaScript, and I'm also familiar with jQuery, Python and Java. I've used tools, frameworks, and environments such as:

- HTML5/CSS3, Grunt, Gulp, and Sass
- Test-Driven Development, Version Control with Git
- Refactoring Java using IntelliJ IDEA, code linting with ESLint
- Vue.js, Node.js, Express, MongoDB, AWS Elastic Beanstalk, S3

Efelle Creative | Marketing Consultant

Oct. 2014 - Present

Business development professional working alongside designers, developers, and 3rd party vendors to ensure the successful delivery of comprehensive digital marketing solutions.

- Meet and often exceed monthly and quarterly sales goals.
- Experience with Agile and Scrum project management methodologies.
- Develop and execute sales strategies to improve personal and team performance.
- Experience with SQL, Salesforce, MS Excel, QuickBooks, Basecamp, Trello, and Toggl.

Efelle Creative | Marketing Intern

July 2014 - Oct. 2014

- Performed pre and post-launch website QA and on-site SEO optimization.
